## MESSAGE FROM STUDENTS

### Dhamodharan Ramasamy ( Graduated )

Valparai, Tamilnadu.

I came to Armenia in 2012 to pursue medicine from the Yerevan State Medical University (YSMU). The University familiarized me to numerous trustworthy friends and endearing teachers. The freedom that i found here was diverse from my previous life experiences. I had neither peer nor social pressure since my first year. The country and its people valued me as a fellow citizen and offered phenomenal greeting wherever i go, YSMU have exposed me to several extra-academic activities in which i received exceptional support by colleagues. The best part of studying abroad is the feeling 'Being Home' that is certainly given by YSMU and Armenia.
